

BankUnited, Inc. Reports First Quarter 2016 Results

April 20, 2016

MIAMI LAKES, Fla.--(BUSINESS WIRE)--Apr. 20, 2016-- BankUnited, Inc. (the "Company") (NYSE: BKU) today announced financial results for the quarter ended March 31, 2016.

For the quarter ended March 31, 2016, the Company reported net income of \$54.9 million, or \$0.51 per diluted share, compared to \$46.5 million, or \$0.44 per diluted share, for the quarter ended March 31, 2015. Operating results for the quarter ended March 31, 2016 generated a return on average stockholders' equity of 9.76% and a return on average assets of 0.91%.

John Kanas, Chairman, President and Chief Executive Officer, said, "Our primary markets continue to show resilience despite a quieter trend nationally. Earning assets grew nearly \$1 billion this quarter and our outlook for the balance of 2016 remains positive."

Performance Highlights

- Total interest earning assets increased by \$972 million during the first quarter of 2016. New loans and leases, including equipment under operating lease, grew by \$527 million during the quarter.
- Deposit growth exceeded loan growth for the quarter. Total deposits increased by \$576 million for the quarter ended March 31, 2016 to \$17.5 billion.
- Net interest income increased by \$34.1 million to \$206.8 million for the quarter ended March 31, 2016 from \$172.7 million for the quarter ended March 31, 2015. Interest income increased by \$48.9 million primarily as a result of an increase in the average balance of loans outstanding. Interest expense increased by \$14.8 million due primarily to an increase in average interest bearing liabilities.
- The net interest margin, calculated on a tax-equivalent basis, was 3.83% for the quarter ended March 31, 2016 compared to 4.02% for the quarter ended March 31, 2015 and 3.94% for the immediately preceding quarter ended December 31, 2015. The origination of new loans at current market yields lower than those on loans acquired in the FSB Acquisition (as defined below) and the cost of the senior notes issued in November 2015 contributed to the decline in the net interest margin.
- Book value and tangible book value per common share grew to \$21.74 and \$20.99, respectively, at March 31, 2016.

Capital

The Company and its banking subsidiary continue to exceed all regulatory guidelines required to be considered well capitalized. The Company's and BankUnited N.A.'s regulatory capital ratios at March 31, 2016 were as follows:

	BankUnited, Inc.	BankUnited, N.A.
Tier 1 leverage	9.0%	10.0%
Common Equity Tier 1 ("CET1") risk-based capital	12.1%	13.4%
Tier 1 risk-based capital	12.1%	13.4%
Total risk-based capital	12.8%	14.1%

Loans and Leases

Loans, including premiums, discounts and deferred fees and costs, increased to \$17.1 billion at March 31, 2016 from \$16.6 billion at December 31, 2015. New loans grew to \$16.3 billion while loans acquired in the FSB acquisition declined to \$825 million at March 31, 2016.

For the quarter ended March 31, 2016, new commercial loans, including commercial real estate loans, commercial and industrial loans, and loans and leases originated by our commercial lending subsidiaries, grew \$393 million to \$13.2 billion. New residential loans grew by \$139 million to \$3.1 billion during the first quarter of 2016.

The New York franchise contributed \$274 million to new loan growth for the quarter while the Florida franchise contributed \$28 million. The Company's national platforms contributed \$230 million of new loan growth. We refer to our commercial lending subsidiaries, our mortgage warehouse lending operations, the small business finance unit and our residential loan purchase program as national platforms. At March 31, 2016, the new loan portfolio included \$5.6 billion, \$5.8 billion and \$5.0 billion attributable to the Florida franchise, the New York franchise and the national platforms, respectively.

Asset Quality and Allowance for Loan and Lease Losses

For the quarters ended March 31, 2016 and 2015, the Company recorded provisions for loan losses of \$3.7 million and \$8.1 million, respectively. Of these amounts, provisions of \$4.4 million and \$8.6 million, respectively, related to new loans.

The decrease in the provision for loan losses for the first quarter of 2016 from that for the first quarter of 2015 reflects comparatively lower new loan growth.

Asset quality remains strong. The ratio of non-performing, non-covered loans to total non-covered loans was 0.37% at both March 31, 2016 and December 31, 2015. The ratio of total non-performing loans to total loans was 0.39% at March 31, 2016 and 0.43% at December 31, 2015. At March 31, 2016, non-performing assets totaled \$78.7 million, including \$11.8 million of other real estate owned ("OREO") and other repossessed assets, compared to \$82.7 million, including \$11.2 million of OREO and other repossessed assets, at December 31, 2015. Non-covered, non-performing assets totaled \$64.5 million, or 0.26% of total assets, at March 31, 2016 compared to \$61.5 million, or 0.26% at December 31, 2015. The ratio of the allowance for non-covered loan and lease losses to non-performing, non-covered loans was 198.61% and 204.45% at March 31, 2016 and December 31, 2015, respectively. The annualized ratio of net charge-offs to average non-covered loans was 0.09% for the three months ended March 31, 2016, compared to 0.13% for the three months ended March 31, 2015.

The following tables summarize the activity in the allowance for loan and lease losses for the periods indicated (in thousands):

Deposits

At March 31, 2016, deposits totaled \$17.5 billion compared to \$16.9 billion at December 31, 2015. The average cost of total deposits was 0.63% for the quarter ended March 31, 2016, compared to 0.62% for the immediately preceding quarter ended December 31, 2015 and 0.59% for the quarter ended March 31, 2015. The average cost of interest bearing deposits was 0.76% for the quarter ended March 31, 2016, compared to 0.75% for the immediately preceding quarter ended December 31, 2015 and 0.73% for the quarter ended March 31, 2015.

Net interest income

Net interest income for the quarter ended March 31, 2016 increased to \$206.8 million from \$172.7 million for the quarter ended March 31, 2015. The increase in net interest income reflected an increase in interest income of \$48.9 million, partially offset by an increase in interest expense of \$14.8 million. The increase in interest income was primarily attributable to an increase in the average balance of loans, partially offset by a decline in the related average yield. Increases in the average balance of investment securities and related average yields also contributed to the increase in interest income. Interest expense increased due primarily to an increase in average interest bearing liabilities and was also impacted by the cost of the senior debt issued in November 2015.

The Company's net interest margin, calculated on a tax-equivalent basis, was 3.83% for the quarter ended March 31, 2016 compared to 4.02% for the quarter ended March 31, 2015 and 3.94% for the immediately preceding quarter ended December 31, 2015. Significant factors impacting this expected trend in net interest margin for the three months ended March 31, 2016 included:

- The tax-equivalent yield on loans declined to 5.27% for the three months ended March 31, 2016 from 5.54% for the three months ended March 31, 2015, primarily because new loans, originated at yields lower than those on loans acquired in the FSB Acquisition, comprised a greater percentage of total loans.
- The tax-equivalent yield on new loans was 3.58% for the three months ended March 31, 2016 compared to 3.48% for the three months ended March 31, 2015.
- The tax-equivalent yield on loans acquired in the FSB Acquisition increased to 36.46% for the three months ended March 31, 2016 from 26.27% for the three months ended March 31, 2015.

- The tax-equivalent yield on investment securities increased to 2.78% for the three months ended March 31, 2016 from 2.59% for the three months ended March 31, 2015.
- The average rate on interest bearing liabilities increased to 0.95% for the quarter ended March 31, 2016 from 0.82% for the quarter ended March 31, 2015, reflecting the impact of the senior notes issued in the fourth quarter of 2015, as well as slightly higher average rates on interest bearing deposits and FHLB advances.

The Company's net interest margin continues to be impacted by reclassifications from non-accretable difference to accretable yield on ACI loans. Non-accretable difference at acquisition represented the difference between the total contractual payments due and the cash flows expected to be received on these loans. The accretable yield on ACI loans represented the amount by which undiscounted expected future cash flows exceeded the recorded investment in the loans. As the Company's expected cash flows from ACI loans have increased since the FSB Acquisition, the Company has reclassified amounts from non-accretable difference to accretable yield.

Changes in accretable yield on ACI loans for the three months ended March 31, 2016 and the year ended December 31, 2015 were as follows (in thousands):

Balance at December 31, 2014	\$ 1,005,312
Reclassifications from non-accretable difference	192,291
Accretion	(295,038)
Balance at December 31, 2015	902,565
Reclassifications from non-accretable difference	26,865
Accretion	(76,112)
Balance at March 31, 2016	<u>\$ 853,318</u>

Non-interest income

Non-interest income totaled \$23.2 million for the three months ended March 31, 2016 compared to \$20.7 million for the three months ended March 31, 2015.

The provision for (recovery of) loan losses for covered loans, net income from resolution of covered assets, gain (loss) on sale of covered loans and loss (gain) related to covered OREO all relate to transactions in the covered assets. The line item Net loss on FDIC indemnification represents the mitigating impact of FDIC indemnification on gains and losses arising from these transactions in the covered assets. The impact on pre-tax earnings of these transactions, net of FDIC indemnification, for the three months ended March 31, 2016 was \$1.6 million, compared to \$4.9 million for the three months ended March 31, 2015.

The most significant item contributing to the variance in the impact on pre-tax earnings of these transactions in covered assets for the three months ended March 31, 2016 compared to the three months ended March 31, 2015 was sales of covered loans. The Company recognized net losses on the sale of covered loans of \$(0.7) million for the three months ended March 31, 2016 and a related net gain on FDIC indemnification of \$0.6 million, resulting in a pre-tax impact of \$(0.1) million. For the three months ended March 31, 2015, the Company recognized net gains on the sale of covered loans of \$10.0 million and a related net loss on FDIC indemnification of \$(8.1) million, resulting in a pre-tax impact of \$1.9 million. The variance in results of covered loan sales related primarily to the characteristics of the loans sold. Additionally, income from resolution of covered assets, net of the impact of related FDIC indemnification, was \$1.6 million for the three months ended March 31, 2016 compared to \$3.0 million for the three months ended March 31, 2015.

The increase in income from lease financing for the three months ended March 31, 2016 generally corresponded to growth in the portfolio of equipment under operating lease.

Other non-interest income for the three months ended March 31, 2016 was reported net of a \$1.5 million decrease in the fair value of mortgage servicing assets resulting primarily from an increase in prepayment speeds.

Non-interest expense

Non-interest expense totaled \$142.1 million for the three months ended March 31, 2016 compared to \$114.1 million for the three months ended March 31, 2015. The most significant component of the increase in non-interest expense was the increase in amortization of the FDIC indemnification asset.

Amortization of the FDIC indemnification asset was \$39.7 million for the three months ended March 31, 2016 compared to \$22.0 million for the three months ended March 31, 2015. The amortization rate increased to 22.24% for the three months ended March 31, 2016 from 9.39% for the three months ended March 31, 2015. As the expected cash flows from ACI loans have increased, expected cash flows from the FDIC indemnification asset have decreased, resulting in continued increases in the amortization rate.

The increase in employee compensation and benefits for the three months ended March 31, 2016 over the corresponding period in 2015 primarily reflected increased headcount related to the overall growth of the Company.

The increase in depreciation of equipment under operating lease for the three months ended March 31, 2016 corresponded to growth in the portfolio of equipment under operating lease.

Provision for income taxes

The effective income tax rate was 34.8% for the three months ended March 31, 2016, compared to 34.7% for the three months ended March 31, 2015.

Non-GAAP Financial Measures

Tangible book value per common share is a non-GAAP financial measure. Management believes this measure is relevant to understanding the capital position and performance of the Company. Disclosure of this non-GAAP financial measure also provides a meaningful base for comparability to other

financial institutions. The following table reconciles the non-GAAP financial measurement of tangible book value per common share to the comparable GAAP financial measurement of book value per common share at March 31, 2016 (in thousands except share and per share data):

About BankUnited, Inc. and the FSB Acquisition

BankUnited, Inc., with total assets of \$24.8 billion at March 31, 2016, is the bank holding company of BankUnited, N.A., a national bank headquartered in Miami Lakes, Florida with 98 branches in 15 Florida counties and 6 banking centers in the New York metropolitan area at March 31, 2016.

The Company was organized by a management team led by its Chairman, President and Chief Executive Officer, John A. Kanas, in 2009. On May 21, 2009, BankUnited acquired substantially all of the assets and assumed all of the non-brokered deposits and substantially all other liabilities of BankUnited, FSB from the FDIC, in a transaction referred to as the FSB Acquisition. Concurrently with the FSB Acquisition, BankUnited entered into two loss sharing agreements, or the Loss Sharing Agreements, which covered certain legacy assets, including the entire legacy loan portfolio and OREO, and certain purchased investment securities. Assets covered by the Loss Sharing Agreements are referred to as "covered assets" (or, in certain cases, "covered loans"). The Loss Sharing Agreements do not apply to subsequently purchased or originated loans ("new loans") or other assets. Effective May 22, 2014 and consistent with the terms of the Loss Sharing Agreements, loss share coverage was terminated for those commercial loans and OREO and certain investment securities that were previously covered under the Loss Sharing Agreements. Pursuant to the terms of the Loss Sharing Agreements, the covered assets are subject to a stated loss threshold whereby the FDIC will reimburse BankUnited for 80% of losses, including certain interest and expenses, up to the \$4.0 billion stated threshold and 95% of losses in excess of the \$4.0 billion stated threshold. The Company's current estimate of cumulative losses on the covered assets is approximately \$3.8 billion. The Company has received \$2.7 billion from the FDIC in reimbursements under the Loss Sharing Agreements for claims filed for incurred losses as of March 31, 2016.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect the Company's current views with respect to, among other things, future events and financial performance.

The Company generally identifies forward-looking statements by terminology such as "outlook," "believes," "expects," "potential," "continues," "may," "will," "could," "should," "seeks," "approximately," "predicts," "intends," "plans," "estimates," "anticipates" or the negative version of those words or other comparable words. Any forward-looking statements contained in this press release are based on the historical performance of the Company and its subsidiaries or on the Company's current plans, estimates and expectations. The inclusion of this forward-looking information should not be regarded as a representation by the Company that the future plans, estimates or expectations contemplated by the Company will be achieved. Such forward-looking statements are subject to various risks and uncertainties and assumptions relating to the Company's operations, financial results, financial condition, business prospects, growth strategy and liquidity. If one or more of these or other risks or uncertainties materialize, or if the Company's underlying assumptions prove to be incorrect, the Company's actual results may vary materially from those indicated in these statements. These factors should not be construed as exhaustive. The Company does not undertake any obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise. A number of important factors could cause actual results to differ materially from those indicated by the forward-looking statements. Information on these factors can be found in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 available at the SEC's website (www.sec.gov).

(1) We define non-performing loans to include non-accrual loans, loans, other than ACI loans, that are past due 90 days or more and still accruing and certain loans modified in troubled debt restructurings. Contractually delinquent ACI loans on which interest continues to be accreted are excluded from non-performing loans.

(2) Non-performing assets include non-performing loans, OREO and other repossessed assets.

(3) Total loans include premiums, discounts, and deferred fees and costs.

(4) On a tax-equivalent basis.

(5) Annualized for the three month periods.
